

FEAT. EVENT

Innovation Day with Johnson & Johnson Innovation, JLABS and CNIO

13 September, 2018 | 11:30-16:15

CNIO, Calle de Melchor Fernandez Almagro, 3, 28029 Madrid, SPAIN

As a first-time entrepreneur, it can be difficult to know how to prepare a non-confidential pitch deck and executive summary. As a start-up grows, being able to successfully evaluate and negotiate strategic alliances is very important, along with knowing the investment landscape.

Johnson & Johnson Innovation, JLABS and CNIO welcome you to a half-day workshop where attendees will learn pitching basics, business development skills and funding opportunities in Spain. This session is geared towards scientists, entrepreneurs, researchers, and business development professionals of healthcare start-ups.
