

EU Missions info days on 17 and 18 May 2022

EU Missions are a new way to bring concrete solutions to some of our greatest challenges. They have ambitious goals and will deliver concrete results in health, climate and the environment by 2030.

At these Info Days we will present a wide range of new topics for all five missions, following the amendment to the Missions' Work Programme 2021- 2022 under Horizon Europe.

This additional funding will bring the implementation of EU Missions one step forward, paving the way to delivering their full potential.

You will also have the opportunity to hear about the call to create a European Social Innovation Catalyst Fund to advance EU Mission objectives across the board.

The event will provide potential applicants with specific information on the new Missions' Work Programme calls, funding opportunities and timelines.

Programme

All sessions will be available to watch from this page. **No registration is required.**
